**AT THE MAGISTRACY.**

For stealing a coil of rope from No. 221,  
Queen's Road West, a coolie was sentenced  
to three months' imprisonment and four  
hours' stocks at the Magistracy to-day.

A coolie was sentenced to one month's  
imprisonment and four hours' stocks at  
the Magistracy this morning, for stealing a  
quantity of beans from the p.s. On Lee.

Four masters of steam launches appeared  
before Commissioner C. W. Beckwith, R.N.,  
at the Marine Court this morning, on a  
charge of failing to blow three short blasts  
on the whistle to indicate that their engines  
were going full speed astern, and two were  
fined \$5 each and the other two \$3 each.

For failing to exhibit a white light whilst  
at anchor a boatman was fined \$3.  
Captain P. Hornum, marine superintendent,  
N.D.L., charged a coolie for being  
on board the s.s. Prince Waldemar without  
permission and a fine of \$50 was imposed.

**MR. BURGESS IN WAX.**

Special Model for M<sup>rs</sup>.  
Tusaud's.

Having swum the Channel and achieved  
fame, Mr. Burgess has had to undergo an  
experience which is common to most cele-  
brities. Last month he exhibited himself  
to Mr. John Tusaud to have his head  
modelled for a figure which is shortly to  
appear in the premier waxwork exhibition.  
The bulky Yorkshireman laughed as he  
was accompanied by his wife, he was shown into  
the studio attached to the exhibition at  
Taverner's. "I am in pretty good  
training," he said, "but I would rather  
swim than sit still for you. I will do the  
best I can."

All preparations had been made; the  
plastic clay was ready on the stand, and  
chatting all the while to his model, Mr.  
Tusaud set to work. But a cry came from  
Mrs. Burgess interrupting him. "Oh, no,"  
she said, "do not give him hair like that  
—that is much too grey." An assistant  
had been taking false hair from a box and  
trying to rub it with the artist's. Mr.  
Burgess only laughed, but his wife insisted  
that the hair was too grey, and her wishes,  
of course, had to be considered.

**A Clergyman**

**Nervous Collapse, Brain Fag, Neuralgia—**  
For getting things done, making things go, the invigorating stimulus of Phosferine cannot be equalled, says the Rev. A. H. Field. Fully aware that as a clergyman he is bound to make sure of the accuracy of his estimation of Phosferine, this gentleman states that, distinct from other cases, he has verified and tested the efficacy of the tonic himself. It was Phosferine, and Phosferine alone, he says, which raised him from the nervous collapse, remedied the brain-fag and neuralgia which held down his efforts and arrested his plans over a lengthy period. Since taking Phosferine he is entirely free from nervous distresses, and can put his whole heart and energies into his work, and indeed, such is his activity that he has roused many helpers to his cause. Experience has taught the Rev. A. H. Field that numbers of people do not realize their languor and half-hearted efforts are due to lack of nerve force, and he believes they will quicker appreciate the efficacy of Phosferine by learning of his own recovery.

**Have No Existence Now.**  
Rev. A. H. Field, 336, Breitenham Road, Walthamstow, writes: "It gives me much pleasure to testify to the beneficial effects of Phosferine in many cases of nervous disorder, where I have advised the use of your tonic. Some four years ago I myself had a nervous breakdown, and a friend advised Phosferine. I took his advice, and I speedily found that I had acted wisely, for the neuralgic pains and the mental weariness soon took flight, and I was thoroughly braced up. Recently some members of my church, at my suggestion, tried the remedy, and were quite satisfied with the beneficial results. I have advised its use now for nearly four years, and in no case has it yet proved a failure. When one thinks of the great number of so-called nerve remedies, it is satisfactory to find at least one upon which reliance can be placed. I wish your Phosferine every success. When preaching away, I have noticed Phosferine finds a place in the village homes."

**AMOY NOTES.**  
(From Our Own Correspondent.)  
Amoy, Oct. 13.

**THE NEW CHINESE ADMIRAL.**  
The new Chinese Admiral is a liberal-minded and progressive official, and as a proof of this, he has taken up his residence on the island of Kulangsu, having rented the house close to the Recreation Ground, known as Kelly Villa. It is quite an unusual procedure for a Chinese official to have his Yamen on this side, though of course most of his official business will be conducted in Amoy.

**DENGUE FEVER.**  
There are not a few cases of dengue fever on the island, among foreigners, and more among the Chinese. The Chinese call this fever the "Ping-Ai-Pong," meaning "the Happy Disease," since it is seldom fatal, but those who manage to catch it find it far from pleasant, and though seldom fatal, it is not unfrequently leads to other complications. Amoy has been released for some time from quarantine as regards plague, and kindred diseases, as few cases have occurred for a long time now.

**AMOY HORTICULTURAL SOCIETY.**  
It has been decided by the committee to hold the Autumn Flower Show some time in the first half of the month of November. Catalogues have been prepared and can be had by all wishing to exhibit. Let us hope they may prove favourable both to preparation for the show, as well as on the tually chosen for the exhibition.

We had a visit last week from the General Secretary of the International Reform Bureau, Mr. E. W. Thwing, who was accompanied by Mr. W. M. Van Norden, and their visit was much appreciated by those who met them. A dinner was given them by the Chinese at which both foreigners and Chinese were present, and good speeches made chiefly in regard to the progress of the anti-opium movement. On the Sunday evening Mr. Thwing preached a most interesting sermon at Union Church, Kulangsu, which was much enjoyed by the congregation present. They have now passed on to visit most of the Provinces of China in order to inspect the condition of opium planting, and kindred matters.

**UNREST.**  
Some districts inland are still far from peaceful, for the reports that come to hand of the clan fighting in the Lam An and Hweian Counties show that the mandarins seem to let the villages manage their own affairs with a nonchalance that is deplorable. The accounts of savagery one hears of, such as the deliberate cutting up of a dead woman into four pieces and the sending of these round to various villages to inflame the villagers to take part in the clan fights, smack more of Central Africa than of a country that wants Western nations to accept it as civilized, and one longs for a more rigorous rule than the mandarins now in office seem prepared to exercise. Fukien was one of the first Provinces to be opened to foreign trade, as far back as 1842, and yet it is lagging far behind most other Provinces in the matter of modern progress. There are not a few Chinese patriots whom one meets who are apt to despair of their country, and who venture to say that a foreign rule would be preferable to the present misgovernment, though they fear Japan while they would not object to England.

**THE "SO-CALLED" FUKIEN RAILWAY.**  
The line is only laid as far as the Kang-Tang-Kia, or "Pholom Bridge," and two trains run each way daily. No further efforts are being made, at least so far as can be seen, to cross the North River, nor to creep up the northern bank and erect higher up. Heaven knows when they will reach Chang Chay Fu, their first objective, and how they can call themselves the "Fukien" Railway, when they show no signs of trying to get to the capital of the Province, Foochow, nor to speak of other parts of the province, it is very difficult for an outsider to understand. Would that the Government would take over the concern, and arrange for a railway line from Shanghai along the coast down to Canton, connecting Ningpo, Hangchow, Wenchow, Foochow, Amoy Swatow, and other big towns in between, with Canton. Were that to happen we in this province might be able to go home all the way by rail. "The first shall be last, and the last, first" is proving true of Fukien, as compared with Central China, Canton and Peking.

**DISTURBANCE IN LONG YEN CHOW.**  
News has just come down of a serious disturbance in this sub-Prefectural city, lying 130 English miles to the west of Amoy, on the upper reaches of the North River. The trouble is evidently due to the incompetence and injustice of the present magistrate there. The populace, having got sick of his misgovernment, attempted to take the law into their own hands, and last week gathered together large numbers of robbers, who flocked into the city, and for a short time the city was all but in their hands. On account of this, hundreds of families fled, not daring to return, until soldiers were sent up from the city of Chang Chay Fu. After these had arrived, and had had a stiff fight with the desperadoes, belonging for the most part to some secret society, and in which the soldiers came off best, the place calmed down, and many returned. Peace is said to have been patched up by the authorities with the heads of the gang, but it has no permanence in it, as the soldiers have seized some robbers, who have been executed by now, and this has started another scare, and hundreds are once more leaving the city. Truly China is in a "loose-and-go" state these days, and one can never tell when the next disturbance may arise.

**TYphoon SIGNALS.**  
**STORM WARNINGS ISSUED FROM THE HONGKONG OBSERVATORY.**

The following Typhoon signals are hoisted on the Mainland on Signal Hill, Kowloon, the Harbour Office, the Kowloon Godown, H. M. S. Tamar, and Green Island signal mast.

A CONE point upwards indicates a Typhoon to the North of the Colony.  
A CONE point upwards and DRUM below indicates a Typhoon to the North-East of the Colony.  
A DRUM indicates a Typhoon to the East of the Colony.

A CONE point downwards and DRUM below indicates a Typhoon to the South-East of the Colony.  
A CONE point downwards indicates a Typhoon to the South of the Colony.

A CONE point downwards and BALL below indicates a Typhoon to the West of the Colony.  
A BALL indicates a Typhoon to the West of the Colony.

A CONE point upwards and BALL below indicates a Typhoon to the North-West of the Colony.

Red Signals indicate that the centre believed to be more than 300 miles away from the Colony.

Black Signals indicate that the centre is believed to be less than 300 miles away from the Colony.

The above signals will, as heretofore, be hoisted only when typhoons exist in such positions or are moving in such directions that information regarding them is considered to be of importance to the Colony or to shipping leaving the harbour.

**URGENT SIGNALS.**  
In addition to the above, when it is expected that the wind may increase to full typhoon force at any moment, the following Urgent Signals will be made at the Water Police Station, and repeated at the Harbour Office:—

THREE EXPLOSIVE BOMBS AT INTERVALS OF TEN SECONDS.

A Black Cross to be hoisted at the same time, superior to the other shapes.

**NIGHT SIGNALS.**  
The following Night Signals will be hoisted from the Flagstaff on Kowloon, the Harbour Office Flagstaff, and H.M.S. Tamar.

I. Three Lights Vertical, Green, Green, Green, indicates that a typhoon is believed to be situated more than 300 miles from the Colony.

II. Three Lights Vertical, Green, Red, Green, indicates that a typhoon is believed to be situated less than 300 miles from the Colony.

III. Three Lights Vertical, Red, Green, Red, indicates that the wind may be expected to increase to full typhoon force at any moment.

No. III Signal will be accompanied by the Explosive Bombs, as above, in the event of the information conveyed by this signal being first published by night.

The Night Signals will be substituted for the Day Signals at sunset, and will, when necessary, be altered during the night.

**SUPPLEMENTARY WARNING.**  
For the benefit of Native Craft and passing Ocean Vessels, a Cone will be exhibited at each of the following stations during the time that any of the above Day Signals are hoisted in the Harbour:

Cap Rock Aberdeen  
Waglan Sau El Wan  
Stanley Sai Kung  
Cape Collinson Sha Tau Kok  
Tai Po Tai Po

This will indicate that there is a depression somewhere in the China Sea, and that a Storm Warning is hoisted in the Harbour.

Further details can always be given Ocean Vessels, on demand, by signal, from the Light House.

Director.

in the Dominion and in the United States, and in some quarters it was even suggested that on assuming office he would see to it that Imperial obligations in this regard were not ignored. This was without doubt an unwarranted imputation of political bias, for as Governor-General and a member of the Royal Family the Duke of CONNAUGHT would have no politics, though, of course, within given bounds, he might be depended on to foster the Imperial spirit. That he will be a most constitutional Governor-General there can be no doubt. As was recently pointed out, a personage of lesser rank and a more youthful man might feel it necessary to "make a record," but not so a member of the Royal Family of the age and experience of the DUKE OF CONNAUGHT. To do what he has to do and do it well, probably will be enough for His Royal Highness. He comes to his new task at a most auspicious moment. Canada has just spoken with no uncertain voice of her loyalty to the Crown, and of her strong desire that the ties of Empire shall more closely draw her to the Motherland. May his term of office see a rich fulfilment of the hope.

**LEGISLATIVE COUNCIL.**  
A meeting of the Legislative Council is to be held on Thursday, when Hon. Mr. H. E. Pollock will ask the following questions:—  
1. Has the Government received any, and, if so, what reply from the Right Honourable the Secretary of State for the Colonies to the unanimous request of the Unofficial Members, made in this Council on the 1st of June last, that the Military Contributions be fixed at the annual sum of one million dollars?  
2. Will the Government lay upon the table the correspondence which has passed between the Government and the Secretary of State and vice versa in connection with the aforesaid request?  
3. Can the Government give the Council any further information with reference to the establishment of a wireless telegraph station in this Colony?  
4. When will the detailed returns of the Census, which was taken in May, be published?  
There are eleven new Bills to come up for first reading, including an ordinance to apply a sum not exceeding \$5,899,771 to the Public Service for the year 1912.

"Empress of India," sent at 10.00 p.m., when the vessel was 870 miles distant from Japan, advising all well and that the Commander expected to reach Yokohama on Wednesday, the 18th instant at 8.00 a.m.  
At H. B. M.'s Court at Shanghai Gabriel Isaac Shkryk has been charged on November 14, 1910, at Shanghai, in a certain action against one F. M. Brooks, instigated by him in the United States Court for China at Shanghai, and during the hearing in the said Court of the said action, he had falsely testified on his own behalf that he had sold 300 Anglo-Java areas for one W. Ash, with intent to mislead the said United States Court and to the perversion of this administration of justice. This case was remanded, but being fixed, accused and two witnesses, British subjects, in the sum of \$1,000 each.

**SOCIAL AND PERSONAL.**  
Lieut. P. Wedd, The Buffs, has resigned his commission.  
Lieut. Godfrey Bruce Cargill, R.N., whose death is announced, entered the service as a midshipman in May, 1899, and served in the Orlando and the Terrible on the China station (the latter ship being commanded by Capt. now Vice-Admiral, Sir Percy Scott) until the beginning of 1903, when he became an acting-sub-lieutenant.  
We are glad to be able to state that Mr. E. Cornwell Lewis has been discharged from hospital. The state of his health, however, makes it imperative that he should at once leave the Colony, and he accordingly goes on twelve months' leave of absence by the s.s. Derfflinger to-morrow. His many friends wish him a complete recovery and a return to the Colony in renewed health and strength.

Rear-Admiral de Castries, Commander of the French Asiatic Squadron, was received in audience by the Emperor and Empress of Japan on the 26th ulto. He was entertained to luncheon at the Kasumigaseki Detached Palace. H.I.H. Rear-Admiral Prince Higashi Fushimi, Count Watanabe, Minister of the Imperial Household, and Count Hayashi, Minister for Foreign Affairs, pro tem., were among the guests.  
Mr. Joseph Chamberlain has been appointed vice-president of the Imperial Mission recently formed for the purpose of promoting unity throughout the Empire. Sir John Forrest is the president of the Western Australian branch. Sir John Victor has undertaken to form a branch in Victoria, and Mr. Samuel Mauger has agreed to confer with Lord Denman (Governor-General of the Commonwealth) with a view of interesting him in the movement. Branches of the mission are being formed in Sydney and Adelaide.

The committee of Lloyd's have decided to bestow the bronze medal of the society upon Madame Maletot, widow of the keeper of the French Lightship at Kerdonis, Belle Ile en Mer, as an honorary acknowledgment of her action in lighting the lantern when her husband became suddenly ill, and with the aid of her daughters, keeping the light revolving by hand until daybreak, though grief-stricken by his death, which occurred shortly after his seizure.

**MACAO NOTES.**  
(From Our Own Correspondent.)  
Macao, October 15.  
A rather fine week has followed on the manifold gloom of gala-days. Latest official wires from Lisbon touching the Monarchist attempt have reached us as most reassuring. As the new régime is now to all intents and purposes well on its pins and making for the uplift of the Old Country, public opinion in Macao is inclined to look askance at Paiva Couceiro's heroic doggedness and to question whether he might not merely be venturing a bold bid for notoriety. The report that he is still in Portugal is generally taken with a grain of salt in the light of a yarn of strong fibre spun just to keep the flagging spirits of his satellites from utter collapse. The joy-untidied front which met his re-appearance in Portugal registered the final decision of the Country, whose Government has now been formally recognized by civilization. Gallant Couceiro! But to ask at this juncture if he is still a patriot would perhaps make his hardy forebears squirm in their graves. Yet Loyola, they say, is powerful and worthy and may bethink himself to die in the last ditch.  
The grateful intelligence is to hand that our Chief Justice, Dr. Marques Vidal, our Director of the Public Works, Sr. Miranda Gueles, may now be expected here any day. The former is probably on the outgoing mail due on 17th inst.

I have to record another addition of 600 metres, within the last half month, to the length of the new hydrographed channel in the harbour which last stood at 1,100 m. on 1st Sept. We welcome the statement that Messrs Macdonald and Co. have exceeded the stipulated depth along the line by 3 feet. Good.  
I must not overlook the activity, during the recent festivities, of our secret service men who "peeped" the police cells with seventy of the light-fingered "gentlefolk." Twenty of the "old hands" have been sent to assist in the public works at Colowan while fifty youngsters were dismissed with a yearning for padded seats.

On the retirement of Capt. Martins Ch. of the Military Department, Commandant Mendes of the Artillery Corps will assume interim charge of the post.

A "Society" paragraph referring to a certain lady says:—"Last year she spent the winter in northern India, the previous year she, with her daughter and son-in-law, went on a voyage round the world and this winter she intends to go to China and probably Japan, and in the former country she will visit the British Minister at Hongkong." (As a Singapore paper has kindly pointed out, she will find Hongkong to be British territory and, consequently, no British Minister there.)

**TO CANTON BY RAIL.**  
(Contributed.)  
Punctual to time, i.e. 8 a.m., we left Newloun station by the morning express for Tai Sha Tau (near Canton City). Considering that the service has only been open to regular traffic a few days, it is certainly being well patronised by the natives and others; as on leaving Kowloon there were over a thousand passengers on board. As we passed through the numerous villages the people were still bent on ceasing their work to watch the iron horse wending its way through a piece of country as fertile as any part of South China. No need to complain of monotonous travelling; if one only uses his eyes that one can make pleasant observations all the way from Kowloon to Canton; every minute may be occupied in catching fresh glimpses of scenery. Passing along the sea-shore one cannot fail to admire the many contrivances utilised to catch fish. For instance there are those long finely made mesh nets of from 700 to 1,000 feet long that enclose the whole mouth of a cove, the net so arranged as to imprison the fish on a falling tide. Then there are those huge square nets attached by ropes to poles overhead and worked from the shore by a wooden windlass; and a hundred and one other smaller devices of fish-catching. Many a time have I examined such nets as these at the coast ports and often have I wondered whether the fisher folk at Home bestow so much skill and patience in producing such fine meshes as one sees in these Chinese nets.  
We leave the sea-shore and make a detour inland and on to fresh scenery. As we whiz past we see in turn fields of young rice, banana, vegetables, etc. Leaving Fan Ling behind, on we rush through winding valleys, then on to open plains dotted here and there with large paddy fields. In the distance small villages are seen peeping out surrounded by the spreading banyan with rising hills in the distant background covered with young pines.

Again another little change. We enter a region of sugar cane plantations on either side of the Railway line. Many of the patches look most attractive in their wealth of leaves. Everywhere the people of the soil are to be seen at work. The peasants are a hardy lot, though it is easily seen that they are not over-fed. But in spite of this, the children appear fairly happy, while the adults are patient, exceedingly thrifty, sober and hardy toilers. This scenery needs repetition, as no foreigner can possibly fail to observe this trait of their character throughout the length and breadth of China.  
Judging from the amount of rice under cultivation on either side of the railway line through a large portion of the whole journey, Kowloon to Canton, including large areas on either side of the East River region, and the fields on either side of the river from Canton to near Capatmoon, one would incline to the idea that the Kwangtung Province could supply her own demands with indigenous production, but I believe that in reality the whole of the Province's own cereal production would not feed its population many days, or at the most many weeks, if they have the misfortune to face a famine.

The trains, the service, rolling stock, ballasting, etc., are good. The coaches run smoothly, the stations are solidly built, the officials are civil, obliging and willing to do their best, and last but not least the Chinese soldiers ("Braves") who stand guard on the arrival at every station, seem to greet one with a friendly smile. They are doubtless necessary during the restless and disturbed state of the district.  
Two conspicuous pagodas reminded us that we were nearing Canton City, and at a few minutes past one o'clock we arrived at the terminal station, a fine red-brick building. The style of architecture. Well, Victorian will do. Our journey back was by the old river route on a most comfortable steamer under the Command of a genial old Irish skipper who can take one back to the forties and fifties, in the days when there was something to pride one's self on in being a sailor.

Every success to the linking up of the two sections of railway. Though we have great hopes in other directions, if the union of the sections is but the means of benefitting the masses ever so little to lessen their daily toil, by giving them easier and cheaper means of transit for their goods, and the means of obtaining with less toil and anxiety a little more food for their daily wants, then our Chinese friends will realise that they have been partially compensated for the presence of the iron horse having ridden rough-shod over  
fring-shut.

**CHINESE PASSENGER BOAT SUNK.**

The master of a Chinese passenger boat reports to the police that while sailing to Canton and when off Lung Ko Tan, at 8 o'clock in the evening of the 14th inst., he altered his course to avoid a collision when an unknown launch struck the boat and the latter sank in five fathoms of water. One of the crew was drowned. The junk was laden with coal and general goods to the value of \$10,000. The junk was insured and it is said that the cargo was insured with the Yangtze Insurance Co. for \$9,250.

**WORTH TWENTY TIMES ITS COST.**  
ONE bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, goes a long way towards relieving suffering humanly. **CORRESPONDENCE.**  
**SANITARY DEPARTMENT COMPLAINTS.**

(To the Editor of the "China Mail.")  
SIR.—May I, through the medium of your paper, draw the attention of the Unofficial members of the Sanitary Board to some very glaring abuses which are taking place, causing great dissatisfaction among the Inspectors? To quote instances, two Inspectors, one of whom has not visited England for over 10 years and the other for about 20 years, are being compelled to take their Home leave within the next few weeks, despite applications for postponement till the Spring. As it is they will arrive in England in the depth of winter. Any comment on such want of consideration on the part of the authorities is unnecessary.  
Then again, several changes are to take place from the 1st January, the very nature of which will benefit the working of the Sanitary Department not in the least. On the other hand, Inspectors concerned are being caused needless expense and unnecessary annoyance.  
As an outsider, I do not wish to interfere with the working of the Department, but in justice to those concerned, one might expect a little more discretion and tact to be exercised by the Head of the Department when dealing with his subordinates. The married families are the greatest sufferers as a result of unnecessary transfers and the breaking up of a home made comfortable after much expense and trouble. It is to be said that the Government does not offer compensation for damage done while removing, and far less because such removals are required to be done on New Year's day. Perhaps one unofficial member of the Board or Legislative Council will trouble to investigate.  
Thanking you for the insertion and enclosing my card, I am, Sir,  
FAIR PLAY.  
SPRAINS.  
SPRAINS require careful treatment. Keep quiet and apply Chamberlain's Pain Balm freely. It will remove the soreness and quickly restore you to a healthy condition. For sale by all Chemists and Storekeepers.

THE WAR  
TURKS IS TIGHT  
CORNER.(Reuter's Service to the China Mail.)  
London, Oct. 18.

The Turkish troops behind Tripoli appear to be in desperate straits for want of food.

The Italians stopped one hundred camel-loads of provisions which were leaving the town yesterday in two and three.

The attempts of the Turks to seize barley and cattle have caused the sheikhs of inland tribes to cut off supplies, and they are now attacking small bodies of Turks whenever opportunity offers.

**THE CHOLERA OUTBREAK.**

Reuter's correspondent at Malta wires that the cholera outbreak in Tripoli is slowly spreading, and that six deaths have occurred.

**MODERN EQUIPMENT.**

The last batch of 15,000 troops for the Italian expedition to Tripoli sailed yesterday, taking a number of automobiles specially equipped to pull heavy weights over the desert sand.

**A POSTPONED CONFERENCE.**

Reuter's correspondent at Berlin says it is stated that the conference arranged yesterday between the Italian Ambassador and Herr von Kiderles-Wascher has been postponed, the Emperor having sent for the Ambassador to confer with him at his Hunting Lodge at Hubertusstock.

**COAST-TOWN GARRISONS.**

Reuter's correspondent at Tripoli wires that some of the expeditionary troops are going to garrison other coast towns, especially Benghazi, Tobruk and Derna.

**REPORTED SURRENDER.**

Italian telegrams report that 150 Turkish officers have surrendered in Tripoli.

It is believed that the Turkish troops will shortly surrender, despite orders from Constantinople.

**ITALIAN DESTROYER SINKS.**

London, Oct. 17.

An Italian destroyer struck a reef when entering Tripoli on Friday. She is now a total wreck.

**WELCOMING A ROYAL GOVERNOR.**

**OTTAWA'S ENTHUSIASM.**

(Reuter's Service to the China Mail.)  
London, Oct. 16.

The Duke and Duchess of Connaught were welcomed to Ottawa with unprecedented enthusiasm, and the crowds at several points along the route taken by the Royal visitors got beyond the control of the police.

**THE INSURANCE BILL.**

**UNIONIST RETORT.**

(Reuter's Service to the China Mail.)  
London, Oct. 16.

The Unionist papers are most indignant at Mr Lloyd George's description of the Unionist efforts to improve the Insurance Bill as obstruction.

They assume that the object of the speech was to make the Bill purely a party measure with a view to justifying the use of the closure, enabling the Government more speedily to clear the ground for Home Rule and Welsh Disestablishment.

They declare that their friendly attitude towards the Bill is unchanged thereby, though they will repudiate responsibility for the defects and injustices inevitable in such circumstances.

**THE RUSSIAN BUDGET.**

(Reuter's Service to the China Mail.)  
London, Oct. 16.

Reuter's correspondent at St. Petersburg wires that the Russian budget of revenue and expenditure places the balance at 2,925,252,100 roubles.

The ordinary estimates show a surplus of 102,219,336 roubles, which is put as an offset against a similar deficit in the extraordinary estimates.

**A SERIOUS EARTH-QUAKE.**

(Reuter's Service to the China Mail.)  
London, Oct. 16.

Reuter's correspondent at Cebu wires that twenty people have been killed, and twenty-four injured, in an earthquake which occurred at Lamocchia on the eastern slope of Mount Etna.

[COPYRIGHT.]  
THE REBELLION.  
SEVERE FIGHTING  
ANTICIPATED.(Reuter's Service to the China Mail.)  
London, Oct. 18.

A message from Peking states that the War Minister and his staff left for the South this afternoon.

**THE GOVERNMENT FORCES.**

By Tuesday 34 transports and trains will have left for Hankow, conveying 24,000 troops.

**MONEY AND RICE SCARC.**

LATER.

The Chinese Minister of Finance has issued from the Treasury 1,000,000 taels to relieve the money stringency.

The price of rice has risen 20 per cent.

**THREE ITALIAN CRUISERS.**

London, Oct. 17.

Three of the fastest Italian cruisers have been ordered to be in readiness to proceed to China.

**JAPAN BLAMED.**

It is semi-officially stated that the Press in Peking is trying to make out that Japan is at the bottom of the revolution in Wuchang.

**A FOOLISH STEP.**

Reuter's correspondent at Peking wires that it is officially announced that passenger traffic between Peking and Tientsin will cease to-morrow.

This may cause panic, as the stoppage is absolutely unnecessary.

**THE FOOD SCARCITY.**

An Edict has been issued providing for the distribution of rice to the poor and the opening of the Peking granaries for the sale of cheap grain.

**BRITISHERS TO LEAVE.**

Reuter's correspondent at Hankow reports that in view of the possibility of severe fighting, the Consul has ordered all Britishers to leave Wuchang, Hangyang and Hankow.

**REBELS TO RESIST.**

(Wah-Tai-Yat-Po's Service.)  
SHANGHAI, Oct. 16.

The Revolutionists have stationed 15,000 troops at Chu Ma Tin, in the Sin Yau Chow Prefecture of Hupoh Province, in order to resist the advance of the troops from the North.

**INDUCEMENT TO ARSENAL WORKERS.**

The revolutionists are paying the Arsenal workers at Hangyang fifty per cent. more than their usual wages.

**GUNBOATS DAMAGED.**

Two further gunboats have been damaged by the guns from the rebels' forts.

**EFFECT ON BUSINESS.**

The market here (Shanghai) is at a standstill, and the natives are in a great state of excitement.

**YUAN SHIH-KAI DECLINES.**

(Wah-Tai-Yat-Po's Service.)  
PEKING, Oct. 16.

H.E. Yuan Shih-Kai declines the appointment as Viceroy of Hupoh and Hunan, while H.E. Hsin Chan Hsun refuses that of Viceroyalty of Szechuen.

**RAILWAY DAMAGED.**

Communication by rail on the Peking-Hankow line can only be had from the capital to the north bank of the Yellow River, as the railway is damaged and is in the hands of the rebels.

**POINTS FROM NORTHERN PAPERS.**

A reform Government has been proclaimed at Wuchang. All foreigners are to be protected and foreign treaties respected so long as the Powers refrain from helping Manchus.

troops, without H. E. Jui Cheng's knowledge, had made common cause with the revolutionaries a long time ago; for which reason Wuchang had now been lost by the sole fault and negligence of Jui-Cheng. He is therefore punished with immediate removal from his office as Viceroy, the duties of which post he has nevertheless to fulfil for the present, and he is ordered, under penalty of most severe punishment, immediately to recapture this city.

Mr. E. D. H. Fraser, H. B. M.'s Consul-General at Shanghai, received a telegram from Hankow on the 13th inst. to the following effect:—"City (Wuchang) in possession of the rebels. The gaois have been burnt and the prisoners let loose. The native police in Hankow City have all deserted and fled. Some troops are said to be coming from the North."

The Viceroy of Hupoh reports that the revolt among the troops was started by a corporal, the higher officers not participating.

Several days before the rebellion some Chinese in soldier's uniform endeavored to purchase 10,000 rifles at Peking for shipment to Wuchang from a foreign firm, which refused to accept the order.

American Consul Green at Hankow reported on Oct. 11th that the mission refused to admit Vice-Consul Johnson when he went to Wuchang to get the missionaries there and transport them to Hankow. The missionaries however assured the vice-consul of their safety.

There were about 40 missionaries in Wuchang at the outbreak of the trouble. They belong to the American, Church Mission, Wesleyan and Swedish Missions, Christian Missionary Alliance and Roman Catholic Mission.

**SPANISH GENERAL SUCCUMBS.**

(Reuter's Service to the China Mail.)  
London, Oct. 16.

Reuter's correspondent at Madrid wires that General Ordenez, who was wounded in the chest in an engagement with Moorish tribesmen at Lhaffen, is dead.

**FURIOUS FIGHTING.**

London, Oct. 17.

Ferocious Moorish attacks on the Spanish positions on the Keri River have taken the Spaniards by surprise.

The Moors crossed the river in the face of artillery fire and attacked the Spaniards furiously.

The Spanish losses, especially in officers, is undoubtedly severe, but they are officially minimised.

**MINISTERIAL CHANGES.**

**A PRESS FORECAST.**

(Reuter's Service to the China Mail.)  
London, Oct. 16.

The Daily Chronicle foreshadows that Mr Winston Churchill will replace Mr Birrell (who is retiring from the Irish Secretaryship owing to ill-health), in assisting Mr Asquith in piloting through the Home Rule Bill; that Colonel Seely will replace at the War Office Lord Haldane, who will receive a high judicial appointment; that Mr Birrell will be appointed a Lord of Appeal; and that a Ministerial post will be offered Mr John Roberts of the Times.

**CATHEDRAL-CHOIR CONCERT.**

In 1909 it was discovered that the fine organ at St. John's Cathedral was, after 20 years' use, in such a bad condition that partial rebuilding and a complete overhaul were necessary to make it fit for further use. To do this it was estimated that the sum of \$10,000 would be required, which amount Mr Denman Fuller undertook to raise. So far, he has raised the sum of just over \$7,000, by subscriptions and concerts, the recitals being in aid of the General Expenses of the Cathedral and only on special occasions going to swell the Organ-Fund. Mr Denman Fuller is now organizing a concert in conjunction with the Cathedral Choir to raise the sum still wanted to completed the renovation and overhauling of the organ. This concert will take place in the City Hall on Friday Nov. 3rd at 9.15 p.m. and it is hoped his efforts will result in a good attendance. The first part of the programme will consist of items of a non-secular nature. Amongst them will be "There is a green hill," by Borstall, for unaccompanied chorus; "I waited for the Lord" (Medley), for two soloists and chorus; "The white Palm-tree," by that coming composer Wallford-Davies, for four solo voices; a duet, "Love Divine" (Stainer); and Teresa Del Riego's well-known song "There's a land of roses," arranged by Mr Denman Fuller for a contralto soloist and chorus. Part II will consist of selections from Veronique, of which the principal are "The Swing Song" and "The Garden of Love," in addition there will be a trio from "Johannes," a chorus, "Call John," a duet, "Robecqua, who slummed down for fun and perished miserably," and a new song and chorus written for this concert by Mr Denman Fuller. Miss Harker will play a piano solo, and Mr Denman Fuller will play Lilla's Second Rhapsody. The tickets are \$3 and \$2 and the plan is to be seen at the Robinson

THE FIRE BRIGADE  
COMPETITION.  
Governor Congratulates  
the Men.

The Hon. Captain Superintendent of Police is in receipt of the following letter from His Excellency Sir Frederick Lugard congratulating the Fire Brigade on the excellent display of Friday evening:

"I shall be obliged if you will communicate to the officers and men of the Fire Brigade who took part in the annual parade yesterday my appreciation of the smartness and efficiency with which the competitions and drills were carried out. As a former amateur fireman with the London Brigade I take an especial interest in the work. Especial credit is due to Mr Macdonald who gives his time as engineer to the brigade and to Mr Lane to whose instruction the brigade owes its efficiency. The floats, as is right in a great part like Hongkong, were especially effective and they can be relied upon to maintain the highest standard under the care and control of Commander C. W. Beckwith. Next year we shall have a motor tender and new ladders and the rapidity with which the brigade can be on the spot will be immensely increased. (Signed) F. D. Lugard."

## SHAMEN NOTES.

(From Our Own Correspondent.)  
CANTON, October 16.

Atmospheric conditions prevalent at the present time can be summed up in the one word "ideal."

**CANTON-KOWLOON RAILWAY.**

Although the traffic returns, since the through running to Hongkong, have so far not come up to the highest anticipations, a considerable and increasing patronage is being extended to the railway. The European traffic is, and of course, always will be, a negligible quantity compared with the native traffic; but quite a number of European passengers are already availing themselves of the opportunities offered to them by the overland route to Canton and vice versa to Hongkong. Everything is being done to foster both the native and European traffic. A special lunch service is being inaugurated to tap the big towns and villages in the East River district adjacent to Shek Lung.

For the convenience of Shamenee residents a small steam launch will shortly be available to enable them to get to the Tai Sha Tau terminus with the minimum of trouble.

Mr Frank Grove, the Engineer-in-Chief of the line, is proceeding home on a well earned holiday in a few days' time. Mr W. G. Moore will be acting Engineer-in-Chief during Mr Grove's absence.

**CUSTOMS NEWS.**

Mr A. W. Cross, late acting Commissioner at Hoihow, passed through last week to take up the Commissioner's duties at Wuchow. Mr M. H. P. Dastalan is proceeding to Kowloon-Tsichou-Wan to open up a new customs station there.

The Revenue Cruiser Kilaip, in the harbour and has been here for the past week.

**THE REVOLUTIONARY MOVEMENT.**

Although, according to the Times correspondent at Peking, a rising may be expected in Canton at any moment, there does not appear to be any untoward excitement in and around the City at the time of writing. No signs were visible yesterday of any extraordinary activity at the Admiralty, or at the various military camps extending as far as Sha-Ho. The mint appeared to be practically unguarded, with the exception of two or three very unimpressive looking sentries stationed in front of the building.

**NAVAL NEWS.**

The following gunboats are in the harbour viz.—British, H.M.S. Moorhen and Robin; French, Vigilante and Argus; Japanese, Uji.

**SHAMENE DEFENCE CORPS.**

Drills are being regularly maintained although the attendance at the same is not up to full strength. It is of course very difficult in all volunteer organizations to keep up the initial keenness and enthusiasm. It is sincerely hoped that the precedent set by one member of the corps, whose nationality shall be nameless, who, upon being asked to explain his absence from drill, tendered his resignation upon the grounds that the weather was too unpropitious, will not be followed.
